Grapevine

September, 2022

***If you represent an organization and would like to write your own (short) description, that would be GREAT. If you offer opportunities for volunteering or citizen science, please be sure to note that.**

What is the Grapevine?

The *Grapevine* is a free monthly e-newsletter intended to help inform North Bay Area educators about science and environmental education resources, events, opportunities, etc. To receive the *Grapevine*, just send an email asking to be added to the *Grapevine* email list to: mroa@sonic.net

Please share this information with whomever might be interested, and if you find out about something that should be shared among science and environmental educators, please let me know.

If you would like to have your event or other science or environmental education opportunity included in the Grapevine, send me an email with a short announcement that I can cut and paste. Send to: mroa@sonic.net Submissions are usually due on the fifth of the month. I plan to send the Grapevine the around the tenth of each month. (See Submission Due Date below.)

To unsubscribe, just send me an e-mail asking to be dropped from the Grapevine list.

Submissions Due:

Submissions for the next *Grapevine* are due **October 5**. The next issue will include events approximately through **Sunday October 16**.

Sharing...resources, information, opportunities

Science Challenge...to end???

In the fall of 2007, I was hired as the part-time science specialist for the Sonoma County Office of Education. One of my responsibilities was to organize the SCOE Science Olympiad event, which I did until the position was eliminated in 2013. Participating teachers asked me to continue to organize a similar event, and I did so for several years, changing the name to the Science challenge.

We held an in-person Science Challenge in March of 2020, at the beginning of the COVID pandemic. We haven't had one since then, but most of the teachers who have been participating would like to offer a Science Challenge event to their students.

Since then, I have become the grandfather of two wonderful grandchildren, for whom my wife and I provide a lot of child care. I've also increased my volunteer work at Armstrong Redwoods. **I've decided that it time to pass the Science Challenge torch (baton? microscope?) to somebody else. If you or somebody that you know is interested, I'd be glad to help with the transition. I'm also happy to discuss the possibility with no obligation.**

The decision should be made by this October. If you have any ideas or suggestions, please contact me by Sept. 30 at mroa@sonic.net.

California Coastal Cleanup Day: September 17

Want to help spread the word? Would you like [Coastal Cleanup Day](#) posters to hang in your classroom, office, community center, or local cafe? There are two styles: inland and coastal. The dimensions are 11 inches x 17 inches with English on one side and Spanish on the other. Let us know your situation and where you plan to display the posters in an email to coast4u@coastal.ca.gov with the subject line POSTERS, and we will help you get what you need.

Mark your calendars for next **Friday, September 9th at noon for a special Facebook Live event!**

We will be joining California State Parks at noon on their [Facebook Page](#) to talk about California's largest volunteer event. Guest speakers will cover the 38-year history of the event, impacts of marine debris, information about how to participate this year, safety, and more.

Coastwalk California will be at Goat Rock Beach and Coastwalk is coordinating with our partners (Conservation Works, Sonoma Coast Surfrider and Doran Regional Parks) this year to provide onsite coordination at Shell Beach, N. Salmon Creek and Doran Regional Park.

Here is a link to our CCD 2022 Web Page: <https://coastwalk.org/2022-ccd/>

Below is the registration link (Registrants choose a beach to clean first and then register) - This event is free and it we are asking people to register in advance.

<https://coastwalk.org/beach-locations/>

[Beach Locations | Coastwalk California](#)

Choose your Coastal Cleanup Day Beach. Each location on the Sonoma Coast listed below has been visited over the years by Coastwalk staff and volunteers and are suitable sites for Coastal Clean Up Day activities.

coastwalk.org

If anyone is interested in leading a cleanup at any of the other beaches they can email me at info@coastwalk.org.

Thank you for sharing this information.

Kind regards,
Connie White
Program Director

Stewards of the Coast and Redwoods:

Woofs Under the Redwoods:

WHEN: Wednesday, September 14, 2022 6:00 pm - 7:30 pm

WHERE:

Armstrong Redwoods State Natural Reserve

17000 Armstrong Woods Road
GUERNEVILLE, CA 95446

Meets: Armstrong Redwoods Visitor Center

Fee: \$11 per person, includes parking

Looking for a shady, dog-friendly, foxtail-free, educational and social event under the redwoods of Sonoma County? We got you. You and your canine best friend are invited to join a docent-led walk through the Armstrong Redwoods State Natural Reserve in Guerneville! The docent will guide a small group of dogs and their guardians along the roads of Armstrong Redwoods SNR to tour some of the park's unique points of interest, such as Parson Jones, a stately redwood that's more than 1300 years old and 300 feet tall. We'll discuss the fascinating world of the redwood ecosystem while your canine best friend gets to take in the sights, sounds and scents of a forest floor teeming with life. The tour will begin with a brief safety message at 6:05 p.m., so please arrive a few minutes early.

Important Note: We know how exciting a walk amongst the redwoods can be, so please be sure your canine best friend is leash-trained, well-behaved and sociable with other dogs and humans. We'll keep the group small and limited to 10 people, so please sign up early. Please be sure to bring waste bags and water for your dog. All dogs must be on a leash no longer than 6'; retractable leashes are not allowed. Except for service animals, dogs are permitted only on paved roads in Armstrong Redwoods.

Please login / quick register to make a reservation:

Tales from the Tidepools: Studying Marine Life on the Sonoma Coast

WHEN: Thursday, September 15, 2022 6:00 pm - 7:00 pm

WHERE:

Zoom

The webinar is free, [donations appreciated](#).

Join a discussion with Jackie Sones of the UC Davis Bodega Marine Reserve and author of the very popular [Natural History of Bodega Head](#) blog about some of the research projects she's been working on during the past 15 years. Jackie will share photos of rare and seldom seen marine invertebrates,

introduce discoveries about local sea stars, discuss an example of detecting new species in our own backyard, talk about the impacts of marine heatwaves along the Sonoma coast, and more! This is a virtual event held on Zoom on Sept 15 from 6P-7. There is no charge but donations are appreciated. [Register here!](#)

Reading Nature for Kids and Parents: Young Explorers Nature Hike at Sonoma Coast

WHEN: Saturday, September 17, 2022 9:30 am - 12:00 pm

WHERE:

Second Trailhead on Goat Rock Rd

Kortum Trail

Jenner, CA 95450

Age Group: Children ages 5 to 8 (children must be accompanied by an adult or guardian)

Meets: [View meet up location via Google Maps](#)

NASA Seeks Student Experiments to Soar in Second TechRise Challenge

Lee esta nota de prensa en español [aquí](#).

NASA is calling on middle and high school students to join the second NASA TechRise Student Challenge, which invites student teams to develop, build, and launch science and technology experiments on high-altitude balloons.

Students in grades six to 12 attending U.S. public, private, or charter schools – including those in U.S. territories – are challenged to team up with their schoolmates to design an experiment under the guidance of an educator. Administered by Future Engineers, the NASA TechRise Student Challenge offers hands-on insight into the design and test process used by NASA-supported researchers. It aims to inspire a deeper understanding of Earth's atmosphere, surface features, and climate, as well as space exploration, coding, electronics, and the value of test data. Teams should submit their experiment ideas by Oct. 24, 2022.

"We are thrilled to offer the second NASA TechRise Student Challenge," said NASA Administrator Bill Nelson. "The quality of the experiments and the creativity we saw from students in the last challenge are exactly the kinds of problem-solving and hands-on learning NASA hopes to inspire. We're eager to see what innovative ideas pour in from students around the nation this year."

To participate in the challenge, visit: <https://www.futureengineers.org/nasatechrise>

A total of 60 winning teams will be selected to turn their proposed experiment idea into reality and launch their technology on a suborbital flight test. The winning teams will each receive \$1,500 to build their experiment and an assigned spot on a NASA-sponsored high-altitude balloon flight operated by one of two commercial providers: Aerostar of Sioux Falls, South Dakota, or World View based in Tucson, Arizona. Both

high-altitude balloons provide exposure to the stratosphere at altitudes of approximately 9-19 miles (15-30 kilometers) and variable duration of flight time of hours to days. The challenge is led by NASA's Flight Opportunities program, which rapidly demonstrates technologies for space exploration and the expansion of space commerce through suborbital testing with industry flight providers.

The winning teams will also receive technical support and mentorship from Future Engineers, including the opportunity to learn or improve technology skills such as soldering, coding, and 3D design. NASA encourages students and their instructors to submit experiment ideas even if they have no prior experience with these activities.

"We could not do a project like this in our classroom without the support of NASA TechRise," said Jill Davis, Superintendent-Director of the Greater Lowell Technical High School in Tyngsborough, Massachusetts, which had one of the winning teams in last year's challenge. "It is something that is truly out of this world! This challenge helped students develop their own unique ideas for future inventions, which adds a new layer of meaning to what they learn."

To enter the competition, teams will propose their experiment idea online using the design guidelines and proposal template on the [competition site](#). NASA plans to announce the competition winners in January 2023. The selected student teams will build their payloads from January to May, and the final experiments will take flight in summer 2023.

Educators interested in TechRise are strongly encouraged to join the [virtual educator workshop](#) on Saturday, Aug. 27, to learn more about the challenge, high-altitude balloons, and how to develop a NASA TechRise proposal. Attendees will also have an opportunity to ask questions of TechRise educators who recently participated in the winner build experience.

NASA also is seeking volunteers to help judge the entries anticipated from across the country. U.S. residents with expertise in engineering, space, and/or atmospheric research who are interested in reviewing NASA TechRise Student Challenge submissions can apply to be a judge [on the Future Engineers website](#). NASA's Flight Opportunities program, based at the agency's Armstrong Flight Research Center in Edwards, California, and part of NASA's Space Technology Mission Directorate (STMD), is leading the NASA TechRise Challenge, with support from the NASA Tournament Lab, also part of STMD.

How long have people been in North America?

I thought that the following article from the August 9 “News from Sigma Xi” was so interesting that I decided to provide the link.

TOP STORY

Mammoth bones date human arrival in North America

(Education
Images/Getty
Images)

The bones of an adult mammoth and a calf found in New Mexico and determined through collagen analysis to be nearly 39,000 years old bear evidence of blunt-force fractures. The findings published in *Frontiers in Ecology and Evolution* indicate humans first entered North America at least 15,000 years earlier than previously estimated.

Full Story: [Gizmodo](#) (8/3)

Citizen Science or Community Science?

Apparently the preferred term is now “Community Science,” rather than Citizen Science. The concern is that people who aren’t U.S. citizens might not feel that they can participate in Citizen Science.

Fighting Disinformation:

The Union of Concerned Scientists has created a web site that provides strategies for countering disinformation. Check it out at:

www.ucsusa.org/resources/what-you-can-do-about-disinformation

California Native Plant Society. Milo Baker Chapter

Monthly meeting and speaker: September 20 **Insect Population Declines : Where are they occurring, how do we measure them and what can we do about them?**

Dr. Nathan Rank, Professor Biology, Sonoma State University

Hybrid Meeting: In person and by Zoom. Zoom Link will be at milobaker.cnps.org

Tuesday, Sept 20 7:30 p.m.

Luther Burbank Art and Garden Center, 2050 Yulupa Ave, Santa Rosa,

Ag & Open Space District Advisory Committee Youth Member

Ag + Open Space is currently recruiting two youth members to join its Advisory Committee – a citizens’ advisory committee that provides review and advice on real property transactions, provides broad-based citizen input on Ag + Open Space operations and acts as ambassadors for the agency within the community. The committee includes representatives from each of the supervisorial districts, the Mayors’ and Councilmembers’ Association, as well as individuals representing youth, agriculture, the environment, real estate, and business.

What are the responsibilities and qualifications required of the youth members?

Young people interested in being an official youth member should:

- Live or attend school in Sonoma County and be between the ages of 16 and 24
- Serve through June 2023 (with option for extension)
- Participate in a new member orientation*
- Attend regular meetings – the fourth Thursday of the month from 5-7pm*
- Contribute your input and perspective and vote on action items
- Work closely with an adult ally that is a current committee member
- Share news and information with your school and community
- Optional: Participate in a subcommittee
- Optional: Complete a project educating your peers about district issues

**At this time, all meetings and orientations will be conducted via Zoom*

What are some of the benefits and incentives for participating?

This is a great opportunity if you want to make a difference. Other benefits could include:

- Earn community service credit required by many high schools and colleges
- Develop your leadership skills and get involved in Sonoma County government
- Explore new career opportunities
- Learn about issues affecting your community and how you can take action
- Develop strong peer relationships with adults, including working with an adult ally
- Meet new people while having fun!

How do interested young people apply?

Please complete **this online application**. If you have questions, please email Amy Ricard, Community Resources Manager at **amy.ricard@sonoma-county.org**.

Positions open until filled.

Bay Area Youth Climate Summit

REGISTER HERE!

Join us for a fun and educational day at the 3rd annual Bay Area Youth Climate Summit! Attend interactive workshops on topics including environmental justice, urban farming, ocean conservation, ARTivism, and fast fashion. Take action through phone banking, letter writing, and sign-making while meeting other youth passionate about climate action. Finally, create a climate action plan (CAP) to solve a climate problem in your community or battle it out in our CAPathon for prizes. We hope you choose to spend your Saturday with us! 🌍

 **Date & time:** Saturday, September 24th, 2022. 10:00am–3:30pm.

 **Location:** World Affairs Building, 312 Sutter St #200, San Francisco. (Downtown SF, close to Montgomery BART station)

 **Health & Safety:** We require that you are fully vaccinated against COVID-19 to attend this event, and we check proof of vaccination before entering the summit. Masks are also required indoors.

National Marine Sanctuaries at Sharktoberfest!

Celebrate the Annual Return of White Sharks and 50 years of National Marine Sanctuaries at [Sharktoberfest!](#)
[Free Event](#)

September 24 5:30pm-8:30pm

Where: Greater Farallones and Cordell Bank National Marine Sanctuary Visitor Center, 991 Marine Drive, The Presidio, San Francisco

Learn about the latest shark research and visit outdoor booths of shark experts, artists, and conservationists. Enjoy beverages, popcorn, a food truck and live music. Bring a low-back chair for the outdoor screening of shark films that will start promptly at 7:30 pm. Don't forget layered clothing, weather can be variable in the evening.

Free Event: Register to get a free shark poster at the event: <https://farallones.org/events>

Request for Proposals: Youth Curriculum Authors

The **Ocean Foundation** has initiated a Request for Proposal (RFP) process to identify young writers between the ages of 13–25 to provide curriculum writing services for the production of a "youth ocean action toolkit" focused on the seven Ocean Literacy Principles and Marine Protected Areas, supported by National Geographic Society.

From the Wildlands Conservancy:

Enjoy the Sonoma Coast this summer at Jenner Headlands Preserve!

Hello Summer! Beauty abounds at The Wildlands Conservancy's Jenner Headlands Preserve on the Sonoma Coast, as miles of trails with sweeping vistas of the Pacific Ocean bid you to climb higher through open coastal grasslands blooming with Coyote Mint, Tarweed, buckwheat and more, leading into the shaded forest beyond. A mosaic of majestic redwood and Douglas-fir trees rise to meet you at the crest and entice further exploration of the Beauty of this unique coastal preserve.

With the solstice behind us, the Wildflower Loop Trail remains open through summer, allowing you to further Behold the Beauty by catching glimpses of colorful tarantula hawk and the wingless wasp known as the fuzzy red velvet ant. Both are fun to see, just be sure not to touch as they can pack a powerful sting!

You can learn more about what's happening at The Wildlands Conservancy's Sonoma Coast Preserves by following us on [Facebook](#) and [Instagram](#). If you see one of our friendly staff members during your visit, please stop and say "hello". Our team is very passionate about the land we steward and eager to answer

questions you may have about The Wildlands Conservancy's Sonoma Coast Preserves or any of our other 22 (and counting!) nature preserves in California and Oregon.
Happy Trails!

Join The Wildlands Conservancy's Rangers and local experts for a unique and insightful interpretive experience at Jenner Headlands Preserve. These free programs book quickly, reserve your spot today! Be sure to bookmark our [interpretive programs calendar](#) for future access to registration links.

California Ocean and Coastal Amateur Photography Contest

Key Details

- **Contest Opens: August 1st**
- **Submission Deadline: September 19th at 5 pm**
- **Deadline to Vote for Viewers Choice Award: October 3rd at 5 pm**
- **Announcement of Winners: End of October**

This annual contest is free and open to all amateur photographers. An amateur photographer is defined as someone who earns less than 50 percent of their income from photography.

See mycoastalphoto.com for previous winners, rules, categories, and prizes!

Photographs in this contest feature the following subjects:

- **The scenic coast and the Pacific Ocean off California**
- **People and the California coast**
- **California ocean and coastal wildlife**

[Read the Contest Rules](#)

Sonoma Water...

...has put out this school year's Water and Energy Education Program.

It includes free field and classroom programs for all grade levels, supplies such as posters, booklets, and rulers, an interactive musical watershed assembly, Steelhead in the Classroom/Aquatic WILD teacher workshop, a grant program, and high school video contest.

National Energy Education Development (NEED project)

Ready for an Energizing 2022-2023 Academic Year!?

NEED activities help students explain, conceptualize, and practice standards required in the classroom - through **fun hands-on, inquiry-based lessons**. NEED provides educators with curriculum & professional development opportunities and we recognize student leadership through our programs and awards.

We invite you to explore the [NEED website](#) for tons of useful (and free) resources to help you this coming school year. Our [Educators Tab](#) has top teacher resources. The [Students Tab](#) has energy-at-a-glance sheets, energy infobooks, energy videos, and more. And our [Awesome Extras](#) page has free PowerPoint presentations, coloring pages, a graphics library, etc.

As always, all [NEED curriculum](#) is available for free PDF download or e-publication.

Keep an eye on our [Event Calendar](#) for both virtual and in person free PDF opportunities all year long!

2022 Forestry Challenge Request for Volunteers

By Diane Dealey Neill

Hello Grapevine readers! We are gearing up to have five Forestry Challenge events this fall, and we hope you will be able to join us. Approximately 25 to 30 volunteers are needed per event. The event dates are:

- Shasta - September 25 - 28 at Mountain Meadows near Shingletown
- **Santa Cruz - October 12 - 15 at Redwood Glen near Loma Mar**
- El Dorado - October 26 - 29 at Leoni Meadows Camp near Grizzly Flats
- San Bernardino Session 1, November 9 – 12 and Session 2, November 16 - 19 at Hume SoCal near Lake Arrowhead

If you are able to spend as little as a few hours or as much as a few days, please visit the [website](#) and follow the link to the [volunteer registration form](#) at the top of the homepage. You can be reimbursed for mileage at the volunteer rate of 14 cents per mile, and meals and housing are provided. Volunteers also receive a fabulous event t-shirt! You are welcome to volunteer for any "job" that is best for your schedule and interest. A [list of jobs](#), including the duties and hours for each, is linked on the volunteer form.

The Forestry Challenge is an academic event for high school students in technical forestry and current forestry topics. Participants spend four days in the forest learning about the ecology and management of the forested landscapes that provide communities with water, recreational opportunities, wood products, and wildlife habitat. **Watch a one-minute [introductory video](#)!**

From the Forestry Challenge Teacher Newsletter:

Headwaters Science Institute:

Are you looking for ways for your students to boost their exposure to science and get hands-on research experience? Headwaters Science Institute has you covered with our Fall Research Experience - and financial assistance is available! The fall program starts Sept. 13 and runs through Dec. 13.

If you haven't heard, the Research Experience introduces students to scientific research and connects students to professional science mentors. This program, which teaches life skills that prepare students for any career, is great for boosting a college application.

[GET MORE INFO OR SIGN UP FOR THE RESEARCH EXPERIENCE](#)

CONGRESSMAN DESAULNIER (Oakland/Richmond area) ANNOUNCES THE 2022 APP CHALLENGE

Congressman DeSaulnier announced the launch of the **2022 Congressional App Challenge(CAC)**, a competition where middle and high school students can demonstrate their coding skills by submitting an original application (app) for mobile, tablet, or other computing devices. Students may participate individually or in teams of up to four. The winning app will be selected by a panel of judges and winners will be invited to a #HouseofCode reception in Washington, D.C. The winning app will also be featured on the House of Representatives' website and displayed in the U.S. Capitol.

For more information and to sign up, please click [here](#) or on the image below. Apps must be submitted by no later than 8:00 p.m. PT on October 31, 2022. For more information or for questions on how to submit an app, please contact our office at 925-933-2660.

Sturgeon's Sawmill Demonstration Dates:

If you are interested in history or redwoods, you really should visit Sturgeon's Sawmill in Sebastopol. This is a steam-powered sawmill that is over 100 years old. They fire it up a few times a year to show people how sawmills used to work in the days when redwood forests seemed to be an inexhaustible resource.

Demonstration dates: Sept. 10-11 and Oct. 15-16.

Demonstration run hours are 10am-3pm.

info at: <http://www.sturgeonsmill.com>

One Day at Big Basin

Here's a link to an Save the Redwoods League article on the reopening of Big Basin State Park:

Redwood Forest Foundation's 2022 (Virtual) Annual Meeting

The [Redwood Forest Foundation's 2022 Annual Meeting](#), an *entirely virtual event* will be held on Thursday, September 29th from 3 to 4:30 PM PDT, with a 30 minute Q&A session afterwards. This is our annual showcase of the work that we have completed during the previous year, our current thinking on critical ecological issues, and the path we are charting into the future. It is also a crucial opportunity to answer questions and receive feedback from the community.

This year, we are excited to welcome our keynote speaker, [Dr. Scott Stephens](#), who will speak to several of the most important issues facing forestland across the region, including wildfire management and forest ecology. As with last year's event, we are looking forward to a spirited Q&A session. Stay tuned for more details about Dr. Stephens' presentation and our program as the date in September approaches.

If you would like to attend this year's event, please register online today.

[View Program Details and Register Today](#)

Some interesting reading:

The cover article of the August 22 issue of [Time](#) is titled “How to do More Good – a Growing Movement Seeks to Improve the World Today- and for Generations to Come.” I know that most Grapevine readers would like to do good works (and are doing good works), so I thought that you might be interested in it. It provides an interesting perspective/philosophical discussion on doing good- what is referred to as “effective altruism.”

The September issue of [Smithsonian](#) includes:

- Bison on Catalina Island (One year I took my Oceanology students there and we played a football game that we dubbed the Buffalo Bowl. TMI?)
- Fossil hunting at Fossil Lake, in Wyoming

The September issue of **National Geographic** articles include:

- Cover article: “America the Beautiful: New ideas for Protecting Land, Water, and Wildlife”
- A photo essay on polar bears in the summer
- A weather station on Everest
- A short article on poisonous pigments in 19th century books
- “Out of Sight”...great photos of microorganisms in the soil

TED Talks: Science Worth Knowing:

New science-related talks are frequently posted.

check it out at <https://www.ted.com/topics/science>

Science in the News from Sigma Xi

(Sigma Xi is a science honor society. You can sign up to receive their **bi-weekly** science e-newsletter at: <https://www.sigmaxi.org/news/newsletters>)

Some stories from recent newsletters include:

- Telescope confirms there’s water on the moon
- The importance of Designed Online Learning
- Scientists contend PFAs in rainfall is global crisis
- Excessive blue light exposure sped up aging in flies
- Study links steroid use to changes in the brain
- Students can swab themselves for COVID-19, study finds
- Helping students find their way back

Sci Tech Daily

Sci Tech Daily is a (you guessed it...) **daily** brief summary of current events in a variety of science fields, including general science, health, space, technology and others.

Go to <https://scitechdaily.com/> **Among many others, the September 5 edition included:**

- Researchers discover a material with brain-like learning capabilities
- Previously unknown loss of Antarctic Ice...Antarctica is crumbling at its edges
- More effective cancer immunotherapy
- Ultra-processed foods linked with heart disease, bowel cancer, and death
- New experimental drug protects against sudden death
- Sulfur shortage: a potential resource crisis that could have disastrous consequences
- More accurate than test scores: scientists discover a new way to measure learning

Science Humor:

Penguins have an oily substance that helps protect them from the cold.
I guess it’s true...the oily bird gets the warm.

California Ocean & Coastal Amateur Photography Contest

2022 Contest Opens August 1st

Key Details

- Contest Opens: August 1st
- Submission Deadline: September 19th
- Deadline to Vote for Viewers Choice Award: October 2nd
- Announcement of Winners: End of October

This annual contest is free and open to all amateur photographers. An amateur photographer is defined as someone who earns less than 50 percent of their income from photography.

See mycoastalphoto.com for previous winners, rules, categories, and prizes!

Photographs in this contest feature the following subjects:

- The scenic coast and the Pacific Ocean off California
- People and the California coast
- California ocean and coastal wildlife

[Read the Contest Rules](#)

Live and Learn

(in which Mike shares something that he's recently learned.)

A former student sent me an old (1912) newspaper article about coal consumption affecting climate. Turns out that even before that date climate scientists and others were predicting the “greenhouse effect.” To check out that article and others, just do a search for “Coal consumption affects climate.”

One link is:

<https://www.businessinsider.com/newspaper-in-1912-linked-coal-to-climate-change-2018-8>

Hot (Cool?) Links:

Physicist Sabine Hossenfelder has made a series of YouTube videos called “**Science Without the Gobbledygook.**” They are about a variety of physics and other science-related topics. Among the titles are:

- Quantum physics is really weird
- What’s the difference between brain and computer?
- Does the past still exist?
- Advil, aspirin, and Tylenol...What’s the difference?
- Bee apocalypse?
- How bad is diesel?
- Is nuclear power green?
- And others

They are pretty easy to understand, although she does present her info pretty rapidly. Check them out at: <https://www.youtube.com/channel/UC1yNI2E66ZzKApQdRuTQ4tw>

And...

Join a discussion with Jackie Sones of the UC Davis Bodega Marine Reserve and author of the very popular [Natural History of Bodega Head](#) blog about some of the research projects she's been working on during the past 15 years. Jackie will share photos of rare and seldom seen marine invertebrates, introduce discoveries about local sea stars, discuss an example of detecting new species in our own backyard, talk about the impacts of marine heatwaves along the Sonoma coast, and more!

This is a virtual event held on Zoom on Sept 15 from 6P-7. There is no charge but donations are appreciated. You may register here:

<https://stewardscr.org/events/tales-from-the-tidepools/>

Other Calendars:

The *Grapevine* focuses primarily on Sonoma and Marin Counties, but folks from all over northern California subscribe to it. Check out these sites for events beyond Sonoma and Marin:

- California Environmental Education Interagency Network (CEEIN): <https://www.coastal.ca.gov/publiced/ceein/calendar.html#calendar>
- The California Science Teachers Association has a Science Education Calendar at: <http://www.classroomscience.org/events>
- CA Regional Environmental Education Community (CREEC): <http://www.creec.org> (select your region)

- Bay Area Science Festival (S.F. Bay Area): <http://www.bayareascience.org/calendar/>
- Math-Science Nucleus (mostly East Bay): <http://msnucleus.org/>
- Marin County Parks: <http://www.marincountyparks.org/depts/pk/calendar>.
- The North Bay Science Discovery Day web site has a calendar of events.
<http://www.northbayscience.org/what-s-next>
- *Sonoma County Gazette* Events Calendars for Nature, Learn, and Kids: www.sonomacountygazette.com
- the *Parents' Press* (parentspress.com) includes a calendar with events throughout the Bay Area, many of which cost money.
- **Forestry Educators** puts out a monthly **Teacher Newsletter** that includes information on resources, jobs, professional development, funding, and other topics that might be of interest. It is not just about forestry education. Contact Diane Dealey Neill at dianedealeyneill@gmail.com Tell her that I sent you ☺
- A resource for San Francisco Bay Area educators is the **Community Resources for Science's Newsblast** . If you would like to receive it, contact Corinn Brown at: crs@crscience.org .
- BayNature magazine: <https://baynature.org/events>

Science and Environmental Education Organizations

These organizations offer science or environmental education opportunities and/or **volunteer** or **citizen/community science** opportunities.

If I know of **volunteer** or **citizen/community science opportunities**, I've indicated that, but some may have opportunities about which I don't know.

Check their web sites for more information.

American Cetacean Society

Description: As the name implies, the ACS works to protect cetaceans (whales, dolphins, porpoises), and also supports research.

Web site: The San Francisco Bay chapter's website is: <https://www.acs-sfbay.org/>

The Aquarium by the Bay:

The web address is <https://bayecotarium.org/>

The teacher page is <https://bayecotarium.org/teachers/k-12-programs/>

Teacher Resources: The Aquarium of the Bay has curriculum resources for all grade levels, K-High School and they can be found under the teacher page on the website.

Audubon Canyon Ranch

Our Mission

Connecting nature, people and science in a rapidly changing world

Our Vision

Inspired and informed communities use scientific knowledge to build a resilient, sustainable society that respects the intrinsic value of our natural world.

They have several sites:

- Bouverie Preserve, Glen Ellen
- Cypress Grove Preserve, Marshall
- Martin Griffin Preserve, Stinson Beach
- Modini Preserve, Healdsburg

Volunteer Opportunities: <http://www.egret.org>

Audubon Society

(Madrone Audubon Society Chapter)

We promote public education, enjoyment, study and protection of the natural world, especially birds.

Check out the Madrone Audubon Society's schedule of walks and other events at: www.madroneaudubon.org

The *Madrone Leaves* newsletter has information about coming events and a variety of conservation issues.

Citizen Science Opportunities

Volunteer Opportunities

Bay Area Teen Science

This site posts opportunities for teens to get involved in science in a variety of ways. Although many of the postings are now outdated, they can still provide ideas and sites for teens to check back with later.

<http://bayareateenscience.org/>

Bay Nature

This locally produced (Berkeley) magazine has many interesting articles, great illustrations, and an event calendar. Check it out at: <https://baynature.org/>

Bird Rescue Center of Sonoma County

The center usually has an open house the first Saturday of the month.

They have an education program...You can arrange a visit to the Bird Rescue Center, or they can come to your school. Request by their online program request form

The Web site has added a "Virtual Resources" section. In it you can find links to many resources on birds, bird identification, and other interesting resources.

Volunteer Opportunities

Check out their web site at: <https://www.birdrescuecenter.org/>

Bodega Marine Lab

The BML offers public drop in tours ~~most Fridays~~ from 2:00 — 4:00 for groups of less than 10 people. ~~Group tours can be scheduled for a minimal fee. call 707-875-2211.~~

They are closed to the public for now, but I expect that they will reopen some time this summer.

They also have a **webcam** focused on Horseshoe Cove

Web site: <http://bml.ucdavis.edu/>

Cal Academy NightLife lectures

The California Academy of Sciences is now open daily. They require times reservations.

Website: <https://www.calacademy.org>

California Coastal Commission

Mission: Protecting & Enhancing California's Coast

The Commission is committed to protecting and enhancing California's coast and ocean for present and future generations. It does so through careful planning and regulation of environmentally-sustainable development, rigorous use of science, strong public participation, education, and effective intergovernmental coordination.

Check out these resources from the California Coastal Commission:

Environmental Education Events Calendar

The California Environmental Education Interagency Network maintains a calendar of events and opportunities relating to environmental education. Find an event or submit yours to the calendar.

California Coastal Voices

A project-based learning guide and online toolkit for middle and high school teachers. Consisting of six units (or "projects") that introduce students to coastal conflicts, challenges, and scientific and policy issues, the emphasis is on problem solving and communication. This learning guide was designed to address California's Next Generation Science, Common Core, and History-Social Science standards. Download teacher resources and student activities and access slideshows, videos, articles, and much more.

Find Lots More Educator Resources online.

website: <https://www.coastal.ca.gov/publiced/pendx.html>

CA. Native Plant Society

The Milo Baker Chapter of the California Native Plant Society (CNPS), named after the famous Santa Rosa Botanist, is located in Northern California's beautiful Sonoma County. CNPS is a statewide organization whose goals are to increase

understanding and appreciation of California's native plants, and to preserve them and their natural habitats for future generations. Membership is open to all.

California Naturalist Program

The UC California Naturalist Program is designed to introduce Californians to the wonders of our unique ecology and engage the public in study and stewardship of California's natural communities. The California Naturalist program uses a science curriculum, hands-on learning, problem-solving, [citizen science](#), and community service to instill a deep appreciation for the natural communities of the state and to inspire individuals to become stewards of their local resources.

The mission of the California Naturalist Program is to foster a diverse community of naturalists and promote stewardship of California's natural resources through education and service.

The California Naturalist Program promotes environmental literacy and [stewardship](#) through [discovery](#) and [action](#). Many other states have similar naturalist programs, but this is the first statewide program in California. To [become a certified California Naturalist](#), participants need to enroll in a 40+ hour course with one of [our partner organizations](#).

We work with over 45 partner organizations that deliver the course and have certified a community of over 2800 Naturalists around the state who have, in turn, volunteered over 175,000 hours in service to nature in the areas of education and interpretation, stewardship, citizen science, and environmental program support. Courses combine classroom and field experience in science, problem-solving, communication training and community service. Students are taught by an instructor and team of experts who are affiliated with a local nature-based center or natural resource focused agency. Upon completing certification requirements, participants are eligible for four academic credits through [UC Davis Extension](#) for an additional nominal fee.

Some CalNat programs are offering online or hybrid programs. See below.

Citizen Science Opportunities

Center for Climate Protection

has a high school program called eco2school. Check it out at: <http://www.eco2school.org>

Children’s Museum of Sonoma County

<http://www.cmosc.org/>

Mission

The Children’s Museum of Sonoma County inspires curiosity and creativity through joyful, transformative experiences.

About Us

The Children’s Museum of Sonoma County (CMOSC) was founded in 2005. Rooted in current early childhood research, CMOSC engages children in joyful discovery experiences that develop foundational skills, create lasting memories, and spark a lifelong love of learning.

Designed for children and their caregivers, the Children’s Museum’s experiential exhibits emphasize hands-on engagement and learning through play with a focus on art, nature, and science.

The Children’s Museum proudly supports the work of parents, caregivers, and educators in raising happy, healthy, and strong children. Since opening its doors in 2014, it has become a valuable cultural resource and destination for Sonoma County.

website: <https://www.cmosc.org/>

Clean River Alliance

The mission of the Clean River Alliance is to remove trash from the Russian River watershed and to educate citizens about the problem of trash in our waters by creating more public clean-up events.

Volunteer Opportunities

The Climate Center

The Climate Center’s work is guided by 3 core principles. All of our climate-safe policies and programs must be based on the latest science, help secure a [Just Transition](#) for fossil fuel workers, and prioritize [Climate Justice](#) for frontline communities. These principles inform our [Climate-Safe California campaign](#).

www.theclimatecenter.org

Coastside Land Trust

THE COASTSIDE LAND TRUST IS DEDICATED TO THE PRESERVATION, PROTECTION AND ENHANCEMENT OF THE OPEN SPACE ENVIRONMENT, INCLUDING THE NATURAL, SCENIC, RECREATIONAL, CULTURAL, HISTORICAL, AND AGRICULTURAL RESOURCES OF HALF MOON BAY AND THE SAN MATEO COUNTY COAST FOR PRESENT AND FUTURE GENERATIONS

The Coastside Land Trust, in Halfmoon Bay, sponsors webinars that may be of interest to you.

Their Web site is www.coastsidelandtrust.org

Coastwalk California

Mission

To ensure the right of all people to reach and responsibly enjoy the California coast. We are a California-wide non-profit volunteer driven organization that advocates for public access to our coast via the California Coastal Trail and offers educational & fun Coastal Trail guided hiking and camping adventures.

Vision

A well-stewarded California coast, highly prized as an irreplaceable commons, open for responsible use to all.

www.coastwalk.org phone: 707-829-6689

Community Resources for Science

CRS helps teachers build on that enthusiasm and bring meaningful science learning experiences to life in their classrooms. Children have a natural curiosity and a craving to learn. CRS works to nurture that learning by connecting classroom teachers with scientists, museums, enrichment providers, and professional development programs in order to bring more science learning experiences to students. CRS also helps individuals and organizations involved in science education to work together and become stronger partners for teachers and schools.

We have compiled some resources for teachers that we thought might be useful as we face school closures and move to more online learning opportunities while we practice "social distancing" in the wake of the spread of COVID-19.

<https://www.crscience.org/>

Community Soil Foundation

Student-Grown Farm Stand

Community Soil Foundation's mission is to cultivate the wellness of Sonoma County communities by offering land-based education, creating access to organic produce, and regenerating habitat and natural resources. We invite you to come to the Larkfield Community Garden & Learning Center every Wednesday afternoon for your weekly supply of nutritious, organic produce. All fruits, veggies, and flowers are grown by Mark West students and community volunteers using biodynamic and sustainable methods, with proceeds helping fund the garden. All sales are by donation. Look for our Farm Stand at 450 Noonan Ranch Lane and check out other happenings at www.communitysoil.org.

Volunteer Opportunities

CREEC

The California Regional Environmental Education Community (CREEC) Network is a program of the California Department of Education. The CREEC Network fosters regional partnerships throughout the state of California to promote environmental education and environmental literacy by providing teachers with access to high quality professional learning opportunities and education resources.

Along with statewide sponsors and partners, each of the 11 California CREEC Regions provides professional learning opportunities and resources to educators as well as foster communications among schools and organizations interested in supporting the environmental literacy of California’s teachers and students. More information on the CDE’s CREEC Network program is posted on the [CDE website](#).

Different areas of the state have different CREEC Regions. For information about events in your region, go to: www.creec.org, and select “regions” at the top

Daily Acts

Who We Are

We are a holistic education nonprofit that takes a heart-centered approach to inspiring transformative actions that create connected, equitable, and climate resilient communities. We believe in the power of our daily actions to reconnect people to self, community, and place, which helps to heal our society and planet.

Our Mission is to inspire transformative action that creates connected, equitable climate resilient communities.

Our Vision is to create healthy, just and sustainable communities built upon the daily actions of many people.

Volunteer Opportunities

East Bay Regional Park District

The East Bay Regional Park District is a system of beautiful parklands and trails in Alameda and Contra Costa counties to the east of San Francisco. The system comprises nearly 125,000 acres in [73 parks](#), including over 1,250 miles of trails and 55 miles of shoreline. We acquire, manage, and preserve natural and cultural resources for all to enjoy now and into the future. Our parks are ideal for healthful recreation and environmental education. We invite you to enjoy hiking, biking, picnicking, horseback riding, camping, fishing, boating, golfing, and nature study in our parks. [General Brochure](#) [PDF]

<https://www.ebparks.org/>

Education and the Environment Initiative

Who We Are

The California Education and the Environment Initiative is a program of CalRecycle's Office of Education and the Environment (OEE). Our mission is to foster environmental literacy among all California students as part of a high-quality K-12 education. Environmental literacy builds critical

thinking and analytic skills that prepare students to make informed decisions about issues affecting our world, and readies them for college and career success.

Our key environmental literacy implementation partners include the California Department of Education's [California Regional Environmental Education Community Network](#) and [Ten Strands](#), a nonprofit organization that supports environment-based learning

<https://www.californiaeei.org/>

Environmental Forum of Marin

At Environmental Forum of Marin (EFM), we're all about education for action. Our founders started by protecting Marin's natural beauty and wild shorelines.

Web Site: <https://marinefm.org/>

Exploratorium

The Exploratorium isn't just a museum; it's an ongoing exploration of science, art, and human perception. Explore our vast [collection of online experiences](#) to feed your curiosity and [education resources](#) supporting online teaching and learning. [Subscribe to our weekly newsletter](#) and get fresh learning resources and virtual programming delivered to your inbox.

<https://www.exploratorium.edu/>

Forestry Challenge

The Forestry Challenge is an academic event for high school students in technical forestry and current forestry topics. Since its inception in 2003, the program has grown from one event to five, a complete buildout of the program in California.

Participants spend four days in the forest learning about the ecology and management of the forested landscapes that provide communities with water, recreational opportunities, wood products, and wildlife habitat. Youth benefit by better understanding the relationship of the forested environment to their community, by exposure to natural resource management as a potential career option, and by undertaking a rigorous critical thinking exercise which is timely and addresses current forestry topics such as wildfire, insects, and forest health.

Watch a one-minute [introductory video](#)!

<http://forestrychallenge.org>

Friends of Five Creeks

All-volunteer Friends of Five Creeks works hands-on for clean water, healthy watersheds, and natural areas that welcome both wildlife and people, from Berkeley to Richmond on the urbanized east side of San Francisco Bay.

Volunteer Opportunities

<http://www.fivecreeks.org/>

Friends of the Petaluma River

WHO WE ARE

In 2005 Friends of the Petaluma River was formed to connect our community with the wonders of the Petaluma Watershed. While much of our work is focused on conservation and education surrounding this sensitive habitat, we also believe that celebration plays a large role in our mission. Through events at the River Heritage Center, family programming around the Watershed and access opportunities for the public we bring our Watershed to life.

Our Mission

Our mission is to celebrate the Petaluma Watershed through education and stewardship; because every great River needs a true Friend.

Our Goals: Access, Education, and Conservation

- To pursue outreach and educational activities that will nurture enthusiasm and commitment in the watershed for long term sustainable stewardship.
- To monitor conditions and engage in activities that will reduce or prevent pollution and lessen other harmful impacts on the River and its wetlands.
- To foster a River Heritage Center as a community resource. A place to archive information, host events, administer programs, and coordinate river related activities.
- To promote access to the Petaluma River and Marsh for all community members to experience the beauty of this resource for themselves

*Are you incorporating environmental education into your classroom?
Or would you like help developing and implementing a project about the Petaluma Watershed?
Let the Watershed Classroom support you!*

Volunteer Opportunities

Green Schoolyards America

Green Schoolyards America seeks to transform asphalt-covered school grounds into park-like green spaces that improve children's well-being, learning, and play while contributing to the ecological health and

resilience of our cities. We are working to change the norm for school ground design, use, and management so that all children will have access to the natural world in the places they already visit on a daily basis.

Our programs support the living school ground movement, build relationships that help it succeed, and work to embed this perspective in our existing institutions and policy and regulatory frameworks.

<http://www.greenschoolyards.org/>

Headwaters Science Institute

The Headwaters Science Institute provides science and environmental education through student-driven research. It is headquartered in Soda Springs. They offer some high school programs for which they charge, butr also provide some free online learning opportunities.

<https://headwatersscienceinstitute.org/>

IGNITE (Inspiring Girls Now In Technology Education)

IGNITE is an organization focusing on achieving gender equity in STEM fields.

www.igniteworldwide.org

iNaturalist :

iNaturalist is a citizen science project and online social network of naturalists, citizen scientists, and biologists built on the concept of mapping and sharing observations of biodiversity across the globe.

No matter where in the world you are, **iNaturalist** brings people together. Whether you have a PhD or just love the outdoors, **iNaturalist** will bring you closer to nature and many fellow naturalists.

<https://www.inaturalist.org/>

Laguna De Santa Rosa Foundation

Founded in 1989, the Laguna Foundation is a place-based organization focused on the Laguna de Santa Rosa and the surrounding wetland communities. **We are a 501(c)3 non-profit with the mission to**

restore and conserve the Laguna de Santa Rosa, and to inspire public appreciation of this Wetland of International Importance.

For details on Laguna Environmental Center events, go to their Web site and check out the Public Education section.

Volunteer Opportunities

!

LandPaths Outings and Events

LandPath's mission is to foster a love of the land in Sonoma County by creating ways for people to experience the beauty, understand the value, and assist in healing the land in their local communities.

Volunteer Opportunities

Lawrence (Hall of Science) at Home:

Welcome to The Lawrence at Home! On this site we will be sharing fun things for you to do at home or outdoors. Kids and families can look forward to exploring, investigating, discovering and inventing through DIY projects, meeting animal friends, science demonstrations and shows, astronomy and nature walks - PLUS, ways for parents to connect with each other and us.

(Includes live streaming programs (schedule posted), videos, science apps and activities, and a section on the science of COVID-19.)

<https://www.lawrencehallofscience.org/lawrence-at-home>

Marin County Parks Department

The Marin County Parks Department offers a variety of opportunities, including volunteer days and naturalist outings. They often partner with the nonprofit One Tam.

Volunteer Opportunities

Check them out at: <http://www.marincountyparks.org/depts/pk/calendar>.

Marin Municipal Water District

The Marin Municipal Water District sometimes has volunteer and citizen science opportunities.

Citizen Science Opportunities

Volunteer Opportunities

volunteerprogram@marinwater.org.

Marin Treks

Marin Treks Natural History Museum offers after school science classes, field trips, and classroom visits to elementary schools and preschools, as well as full and half-day camps during school vacation periods.

<http://www.marintreks.com/index.html>

Marine Mammal Center (Marin County)

The Marine Mammal Center is a wonderful field trip destination for schools and organized community groups such as scouts, camps, and after-school programs. They have a variety of classes available in their lab, have a “Sea to School” program with programs for all grade levels available to come to your school or site, an “Ocean Ambassadors” program for middle schoolers, information on marine mammals, and a variety of other resources.

Join them on the 2nd and 4th Sundays of each month for Marine Science Sunday - a FREE engaging ocean-inspired classroom series from our education experts. These interactive classroom programs are great for all!

Volunteer Opportunities

Go to <http://www.marinmammalcenter.org/> or phone 415-289-7325

NAAEE

(North American Association for Environmental Education):

NAAEE works to accelerate environmental literacy and civic engagement through the power of education.

<https://naaee.org/our-work/programs/covid-19-resources-tips-and-support>

EE News:

The NAAEE’s monthly EE News includes articles or links to articles on environmental education topics. It also includes listings of Professional Development opportunities, Grants and Contests, and Resources for Students and Educators

https://webmail.sonic.net/?_task=mail&_caps=pdf%3D1%2Cflash%3D0%2Ctiff%3D0%2Cwebp%3D1&_uid=23501&_mbox=INBOX&_safe=1&_action=show

NOAA

What can NOAA do for you? NOAA Needs Your Input!

NOAA wants to know what type of STEM multimedia and distance learning educators would like to use with students, and for their own professional development.

National Marine Sanctuaries Webinar Series

The National Marine Sanctuary Webinar Series provides educators with educational and scientific expertise, resources and training to support ocean and climate literacy in the classroom. This series targets formal and informal educators that are engaging students (elementary through college) in formal classroom settings, as well as members of the community in informal educational venues (e.g. after school programs, science centers, aquariums, etc.).

Past Webinars are archived and can be accessed from the site.

<https://sanctuaries.noaa.gov/education/teachers/webinar-series.html>

Novato Space Station Museum

Prior to COVID-19, the museum was open most Thursdays-Sundays, and often offered “telescope nights” and daytime solar telescope viewing.

Volunteer Opportunities

Go to <http://www.thespacestationca.org/> to find out about the Novato Space Station Museum and the events that they offer, including:

Occidental Arts and Ecology Center

Sometimes offers courses and events, especially in gardening and permaculture

Go to <https://oaec.org/events/>

OneTam

One Tam is a group that works to protect and enhance the Mount Tamalpias area. See also [Marin County Parks Department](#).

Planet Bee Foundation

Planet Bee Foundation is a 501(c)(3) environmental education nonprofit currently offering [virtual E-STEM lessons](#) centered around bees at **NO OR VERY LOW COST** in response to the pandemic. We have virtual live lessons with certified teachers or interactive asynchronous video lessons. We served over **20,000 students** around the country in 2020. [Watch our trailer on YouTube.](#)

Our comprehensive distance-learning program can be tailored to the needs of your classroom curriculum with differentiated activities that align with the **NGSS and the Common Core**.

99% of our virtual lessons have been provided at no cost in our dedication to social justice. Our pricing (if any) and sliding scale are listed [here](#).

Volunteer Opportunities

Please feel free to reach out with questions to programs@planetbee.org.

Point Reyes National Seashore

Point Reyes National Seashore Association's [Science at the Seashore](#) field trip program for school groups.

Join Us for Hands-On Discovery in Point Reyes!

Students have the opportunity to experience the excitement of discovery in natural habitat, improve science skills, increase awareness and inspire stewardship of our environment. Field trips are held in the restored Giacomini Wetlands, surrounding watershed creeks, or Point Reyes bays and beaches. Study equipment and waterproof footwear are provided; Minimum group size is 10 students; Some activities are season, tide, and group-size dependent; A fee is requested, but scholarships are available!

Hands-on activities include: Aquatic macroinvertebrate sampling, Wildlife tracking, Terrestrial invertebrate sampling, Water quality testing, Fish sampling, Bird surveys, Wetland plant studies, Soil and sediment studies, Habitat restoration, Creek profiling and hydrology, Sandy Beach Mole Crab Monitoring (LiMPETS), Marine debris surveys, Drakes Estero paleo geology and biology.

<https://www.sierraclub.org/sierra/green-life>

Slide Ranch (Marin County)

The mission of Slide Ranch (on the Marin Coast in Muir Beach) is to connect children to nature. We cultivate healthy bodies and minds and foster future generations of environmental stewards. By farming, cooking, caring for animals and

exploring wilderness and the coast, we teach people of all ages to see the connection between their own health, a healthy food system and a healthy environment.

Go to: <http://slideranch.org/>

Sonoma Birding

Mission Statement – Sonoma Birding ∞ Sonoma Nature was founded in 2004 in Sonoma Valley, CA. as a volunteer “citizen science” based conservation organization that establishes sustainable bird and nature related festivals, activities, and programs for all ages, through a variety of partnerships in Northern California and throughout the United States and Canada.

Citizen Science Opportunities

Volunteer Opportunities

For information, go to www.sonomabirding.com

Sonoma Co. Agriculture & Open Space Preservation District

The District partners with several environmental and outdoor education organizations. For more information, go to the District Web site (<https://www.sonomaopenspace.org/>) and select Education and Outreach in the Get Involved tab.

Some of the programs are:

- FARMS Leadership (with Sonoma Resource Conservation District)
- Learning Laguna (with the Laguna Foundation)
- In Our Own Back Yard (with LandPaths)
- Teaching Environmental and Agricultural Memories (with Gold Ridge Resource Conservatin District)
- Wildlife Defenders (with Sonoma Ecology Center)

Sonoma County Astronomical Society

The Sonoma County Astronomical Society is an amateur astronomy club. They have telescope viewing programs and a variety of public outreach programs.

<https://www.go-astronomy.com/astronomy-club.php?!D=479>

Sonoma County Library

The Sonoma County Library often has programs that are science related. Select the Events tab at:

<https://sonomalibrary.org/>

Under that tab they have a “calendar” and a “list” choice. I find the list easier to use. Note that you can also search by **location** or by the *title* of the program.

Upcoming events include such things as the following, most of which occur at different branches throughout the month.

- presentations by Sonoma County Master Gardeners
- Lego Club
- Hour of Code (Maker Studio)
- Build Club
- gardening for kids

Sonoma County Office of Education Science Ed. Offerings

SCOE occasionally science-related classes for teachers on their Web site (www.scoe.org):

Sonoma County Regional Parks

The Sonoma County Regional Parks offer a wide variety of activities, many of which are science or nature-related. Go to: <http://parks.sonomacounty.ca.gov> and scroll down to “Upcoming Events”.

Some activities are purely recreational, some provide opportunities for community service, and all are educational!

Environmental Discovery Center Drop-in: Every Wednesday-Sunday

Volunteer Opportunities

Sonoma County Water Agency

They have a redesigned Web site and increased resource listings. go to:

<https://www.sonomawater.org/education>

Sonoma Ecology Center and Sugarloaf Ridge State Park’s Team Sugarloaf

Sonoma Ecology Center works to address challenges related to water supply and quality, open space, rural character, biodiversity, energy, climate change, and a better quality of life for all residents. Since 1990, we’ve worked to increase appreciation and stewardship of Sonoma Valley’s natural heritage and create measurable benefits in areas of land, water, climate change and biodiversity.

Vision

We envision a future where people, land, water, and wildlife thrive.

Mission

Our mission is to work with our community to identify and lead actions that achieve and sustain ecological health in Sonoma Valley.

Robert Ferguson Observatory:

Robert Ferguson Observatory is continually looking for new docents and volunteers of all ages to help bring the universe to the public. The Observatory is run by the Valley of the Moon Observatory Association, a 501(3)(c) non-profit, and has offered outreach-based astronomy and science programs to the public for almost 25 years. RFO is almost all-volunteer run and typically serves about 9,000 visitors annually. The observatory is located in Sugarloaf Ridge State Park and houses a 40-inch reflector telescope, the largest telescope in Northern California that is accessible to the public; a robotic 20-inch research-grade, "CCD" telescope; and an 8", two-meter long refractor telescope. Prior experience or knowledge in astronomy is not necessary. Please go to rfo.org, click on "Volunteer" and fill out the volunteer application form online to get on the list for our next docent orientation and training! Questions? Contact Stephanie Derammelaere at 707-333-1331 or at sd@rfo.org.

Volunteer Opportunities

Sonoma Land Trust

The Sonoma Land Trust offers a variety of educational outings and volunteer opportunities for the public on protected lands. Check them out at: <https://sonomalandtrust.org> (select the "Explore" tab for the calendar)

Volunteer Opportunities

Citizen Science Opportunities

Sonoma/Petaluma State Historic Parks

While the Sonoma/Petaluma area state Parks primarily focus on history, they do have some science/environmental events and offerings such as twilight nature hikes.

For info, go to www.sonomaparks.org

Sonoma State University:

The Sonoma State University School of Science and Technology has a periodic online newsletter that gives news about the school and includes a link to the various department public speakers and events.

The link for the **speakers/colloquia** is: <http://www.sonoma.edu/scitech/pls/>.

SSU Center for Environmental Inquiry:

The Center's mission is to create an engaged and environmentally ready society, one where everyone has the skills to find solutions to the challenges facing the earth.

With the complex issues before us, such as climate change, overuse of resources, and declining biodiversity, we need to be awake, prepared and engaged. We need to know how to work across sectors and find innovative ways forward.

There is good evidence that we are not ready. Intuitive understanding of ecosystem processes is at an all-time low, and many professionals entering the workforce are not prepared to problem-solve or aware of the impact of ecosystems on economy and culture.

Citizen Science Opportunities

Volunteer Opportunities

Water Education Foundation

<https://www.watereducation.org/>

Wildcare

Wildcare is a (primarily) Marin County organization dedicated to the care and protection of wildlife. They have a variety of programs for teachers and volunteers.

Volunteer Opportunities

Check out Wildcare at: www.discoverwildcare.org

Wildlands Conservancy/Jenner Headlands Preserve Events

Relatively few people know about the Jenner Headlands Reserve on the Sonoma Coast. It is a beautiful place, and they provide some great opportunities.

Volunteer Opportunities

http://www.wildlandsconservancy.org/preserve_jenner.html

RESOURCES:

180 Studios

180 Studios is a 15,000 square foot warehouse conveniently located just off Highway 101 in Santa Rosa

Once fully open, the space will provide public access to professional equipment in a dynamic environment for multi-generational collaboration that supports the teaching, learning, and practicing of industrial arts, creative arts, engineering, and design.

For information, go to: <http://www.180studios.org/>

Bay Area Teen Science

this site posts opportunities for teens to get involved in science in a variety of ways. Although many of the postings are now outdated, they can still provide ideas and sites for teens to check back with later.

<http://bayareateenscience.org/>

Bay Model Visitor Center

The San Francisco Bay Model, in Sausalito, is a scale model of the San Francisco Bay. It is used for scientific research and modeling, and is also available for school tours. They also offer a variety of events and programs. Go to:

<http://www.spn.usace.army.mil/Missions/Recreation/BayModelVisitorCenter.aspx>

Brain Pop

Subscription based lessons on a wide variety of topics. <https://www.brainpop.com/>

California Academy of Sciences

The CalAcademy has a variety of programs that would be of interest to youth who are interested in science. They include

- Teen Science Night Digital Learning Tech Teens
- Careers in Science Intern Program
- Teen Advocates for Science Communication (volunteer program)
- Teen Think Tank Science Action Club

Find out more at: <https://www.calacademy.org/youth-programs>

CA Department of Fish and Wildlife Hatchery Education Program

The Hatchery Education Program offered by California Department of Fish and Wildlife's has opened their Fall enrollment period. Apply now for a free one hour session of multimedia learning about fish, watersheds & more! Dynamic activities illustrate key concepts and encourage critical thinking with subject matter aligned with learning standards specific to grade level. The application for Fish Academy, a guided activity based learning day at Don Clausen Fish Hatchery at Warm Springs Dam in early 2017, is also available now. Contact Sastra McGinley at sastra.mcginley@wildlife.ca.gov or (707) 280-3084 or visit www.wildlife.ca.gov/Regions/3/HEP

CA. Department of Parks and Recreation

The California Department of Parks and Recreation has several “Guides for Educators” available that may be of interest to *Grapevine* subscribers. These include resources for teaching about both historic parks and natural

parks. Some are available for downloading, including some that I (Mike Roa) wrote. I can provide workshops/staff development on those that I wrote. You might be interested in taking a look at:

[The Conifer Connection: A Resource for Learning and Teaching about Coniferous Forests and Watersheds](#)

[A Guide to the Side of the Sea: A Teacher's Guide for Field Trips to Rocky Intertidal Areas](#)

[Redwood Ed: A Guide to the Coast Redwoods for Teachers and Learners](#)

} I wrote these three.

[A Teacher's Guide to Sonoma State Historic Park](#)

[Allensworth: A Piece of the World, A Teacher's Guide with Student Lessons and Resources](#)

[California State Capitol Museum School Packet \(Teacher Version\) \(Student Version\)](#)

[Governor's Mansion State Historic Park Teacher's Guide](#)

[Indian Grinding Rock State Historic Park and Chaw'se Regional Indian Museum School Tour Information](#)

Climate Change Educational Materials from the U.S. E.P.A.

Find [climate education teaching tools](http://go.usa.gov/3AVx9) (<http://go.usa.gov/3AVx9>) and introduce your class to a [A Student's Guide to Climate Change](http://go.usa.gov/3AV3G). (<http://go.usa.gov/3AV3G>)

Environmental Protection Agency Resources

The U.S. E.P.A. has a variety of resources that you may find useful. Check them out at:
usaepa@service.govdelivery.com

U.S. E.P.A.

Activity Book for Elementary Age Students

How do you describe to students what the EPA does?

Use our newest activity book for elementary age students to help introduce them to EPA. Kids can learn about the different ways the EPA works to protect our environment and our health. It's a simple, straightforward guide suitable for children of all ages.

[Download the PDF](https://go.usa.gov/xn946). (<https://go.usa.gov/xn946>)

Find more downloadable and hardcopy resources at the [National Service Center for Environmental Publications](https://www.epa.gov/nscep). (<https://www.epa.gov/nscep>)

Evolution Videos

Shape of Life offers FREE classroom videos depicting the evolution of the animal kingdom on planet earth. Students and educators from all over the world explore animal adaptation, animations, and behaviors along with the amazing scientists who bring their stories to life. We also offer a rich selection of NGSS materials including lesson plans, readings, illustrations and activities that inspire a deeper dive into the phyla that explain so much of our existence.

<http://www.shapeoflife.org/>

Geothermal Education Resources

The Geothermal Education Office, in Tiburon, has a wealth of teacher resources on geothermal energy, including slide shows, videos, classroom materials, maps, lists of web sites, and more. go to: <http://geothermaleducation.org/> or contact them at: 24hrcleanpower@gmail.com

Headlands Institute/Naturebridge...Sausalito

A variety of environmental science opportunities for grades K-12 are available at the Headlands Institute. They also have professional development workshops for teachers (formal and non-formal), and a variety of classroom resources. Go to: <http://www.naturebridge.org/golden-gate>

iNaturalist

iNaturalist is a Web site that allows **citizen scientists (like you and your students!)** to post pictures and information about plants, animals, and other science that they see in their yards and travels. It is a GREAT site for your students to not only explore but to contribute to. Go to: www.iNaturalist.org

An example of the use of iNaturalist at the Jenner Wildlands Preserve can be seen at:

http://www.inaturalist.org/projects/jenner-headlands-preserve-inaturalist-notebook?utm_source=Jenner+Headlands+Community+Meeting+2015&utm_campaign=JHP+Analytics&utm_medium=email

and another example can be found at: www.protecthabitat.com

Resources from the Marin Co U.C. Cooperative Extension Service

The Marin County U.C. Cooperative Extension Service has teaching materials on a variety of topics, including sudden oak death, trees/forestry, stewardship, agriculture, and more.. Go to:

http://cemarlin.ucanr.edu/Programs/Custom_Program816/Environmental_education_resources/

Marin Co. Resource Links:

The County of Marin has compiled a list of environmental education resource links for adults and for kids. Go to: <http://www.marincounty.org/depts/pw/divisions/mcstoppp/archive/resources-for-schools>

Marin Master Gardeners **Dig It. Grow it. Eat it. A workshop**

A one-day workshop on edible plants and nutrition for third and fourth graders, led by UC Marin Master Gardeners and held at the Marin Art and Garden Center. Students will learn to identify edible plant parts and about how plants grow, including the science of pollination and propagation.

- **Station 1 - Edible Plant Parts**
- **Station 2 - How Plants Grow**
- **Station 3 - Plant Seed Science**
- **Station 4 - Plant Propagation**
- **Station 5 - Get in the Dirt**
- **Station 6 - Plant Pollination**

If you are interested in this program, please contact UC Marin Master Gardeners Help Desk.

Email: HelpDesk@MarinMG.org, or call: (415) 473 – 4204

Marin – Sonoma Mosquito Abatement District

Free Science Presentations

The Marin/Sonoma Mosquito & Vector Control District offers free presentations about vectors (mosquitoes, yellowjackets and ticks) to any school in Marin and Sonoma Counties. The presentations focus on the biology of vectors and how students can protect themselves from these critters. Visit <http://bitly.com/educationdept> for more information, or contact Eric Engh at erice@msmosquito.com to be added to our scheduling list.

Mystery Science (a.k.a. Mystery Doug)

Lessons based on searching for answers to questions on a variety of topics. Schools or teachers can try out some of these lessons for free. Fee for unlimited access.

www.mysteryscience.com

Ocean Currents Radio Program

The first Monday of every month Cordell Bank National Marine Sanctuary produces a live radio program on Community Radio for West Marin called Ocean Currents. Hear from ocean experts as you learn about the importance of a healthy ocean.

Broadcast live in the West Marin listening radius and live online at www.kwmmr.org, 1-2 pm. The shows are all archived on the Cordell Bank sanctuary [website here](#), or you can subscribe to the podcast.

Looking for a good resource online to get ocean wildlife photos for educational use?

Check out the [National Marine Sanctuaries online media library](#)

Download photos and video footage for free for educational use and check out the marine sanctuaries online encyclopedia. There are 4 National Marine Sanctuaries in CA. Do you know which ones are closest to you?

NOAA Resources for you

The folks at the Cordell Bank National Marine Sanctuary and the National Oceanographic and Atmospheric Administration (NOAA) have a variety of resources and opportunities available. Check the opportunities out at <http://cordellbank.noaa.gov>

Planet Bee Foundation

[Planet Bee Foundation](#) is a Bay Area nonprofit dedicated to creating a green-minded generation through environmental stewardship, using the lens of the struggling honey bee to teach the power of individual action. We have expanded our offering of hands-on educational programs, each of which can be individually tailored to fit a school's needs, wants, and location. Every lesson is in line with Next Generation Science Standards and grounded in the philosophy of E-STEM learning. We are now taking sign-ups for the 2018-19 school year! Our calendar fills up quickly, so check out our website at planetbee.org and sign up now!

Planet Bee now offers one-day and year-long programs. The [school program overview page](#) on our website lays out each program offering, their alignment with E-STEM and NGSS, and our updated pricing structure. Need-based discounts and sponsorships are available.

All of our programs are developmentally appropriate and designed to address all learning styles. Most programs involve observation of (contained) live bees, games, hands-on activities, and plenty of room for inquiry, creativity, exploration, and discussion. We focus on conservation techniques and environmentalism in every program.

One-day workshops include: [Humble Honey Bee](#), [Bee-ometry](#), [Native Bees of California](#), [Wanna-Bee an Engineer?](#), [Hive Dive Live](#)

Year-long programs include: [ZomBee Watch](#), [Adopt-A-Hive](#), [Wanna-Bee an Engineer?](#), [Honey Bee Series](#), [Native Bee Series](#), [All Bees Series](#)

We have also added a new format for [High School Programs!](#)

Please email our Program Director, Sarah Thorson, at programs@planetbee.org if you have any questions, or sign up for programs via the online registration forms on our website, www.planetbee.org. Together we can change the world - one bee and one student at a time!

Point Blue (Point Reyes Bird Observatory)

At Point Blue, our mission is to advance the conservation of birds, other wildlife, and ecosystems through science, partnerships, and outreach. Our 140 scientists work to reduce the impacts of habitat loss, climate change, and other environmental threats while promoting nature-based solutions for wildlife and people, on land and at sea.

In addition to the scientific work done by the folks at Point Blue, they have a variety of educational programs. Go to: <http://www.pointblue.org/>

Sonoma County Wildlife Rescue

Presentations

We love to give educational presentations to groups of all ages! We make each presentation to match your group's unique needs. We can talk on a variety of subjects, including ecology, wildlife rehabilitation, and cohabiting peacefully with wildlife. Presentations may include Powerpoint, skits, games, or specimens.

Tours

Each presentation at SCWR includes a tour of our Educational Wildlife Community. Our community is comprised of non-releasable wildlife in natural enclosures. Animals include mountain lions, coyotes, raccoons, and many more!
If you would like to sign up for one of our presentations, please call (707) 992-0274 or email us at education@scwildliferescue.org.

Web site: <http://www.scwildliferescue.org/presentation-at-scwr.html>

For information, contact Linnaea Furling at: education@scwildliferescue.org or 707-992-0274

Sonoma Resource Conservation District:

Education

LandSmart Education® creates connections and inspires conservation through a series of engaging educational opportunities for community members of all ages. Youth programs offer innovative hands on learning experiences at local farms. A distinctive public outings series highlights local protected agricultural properties and the importance of conservation as a tool in working landscapes in partnership with local landowners. Our annual workshops are designed to deliver cutting edge information and resources about land management techniques available through RCD and partner programs with topics including water management and conservation, fish and wildlife habitat enhancement, erosion control, soil health, and carbon sequestration.

Education programming includes:

- FARMS Leadership Program- high school youth
- TEAM Program field trips- elementary school students
- Agricultural Heritage Series- for members of the public
- LandSmart Workshops- designed for landowners and managers

The California Academy of Sciences, the Exploratorium, and other organizations periodically offer free “Teen Science Night” events. Partners include Space and Science Museum, de Young Museum, Oakland Zoo, San Francisco Zoo, Marine Mammal Center, NASA and others. Do (or have your students do) an Internet search for “Teen Science Night” for upcoming events.

Teen Tech San Francisco

Our mission is to inspire and empower the next generation of tech innovators.

TeenTechSF is an interactive tech community for teens to innovate, collaborate, and create. Run by and for teens, all our events are free.

Since launching, TeenTechSF has connected 1,600+ teens on five continents with more than 100 tech leaders from Apple to Zynga offering presentations and workshops on design thinking, coding, app creation, robotics, 3-D printing, entrepreneurship, professional networking, tech careers, and global tech trends.

Like the [TeenTechSF Facebook page](#) for the latest news & events.

See the [TeenTechSF@MarchFor Science video](#) and [TeenTechSF March For Science Facebook recap/photos](#).

This Week in California History...

is a new site for learning about California history, including California’s science and environmental history.

ThisWeekinCaliforniaHistory.com is a digital playground for California history and geography. It posts what happened in

California over 500 years a week at a time; from natural history to LGBT milestones and including science events like 19th century patents by women in California. The site is free, non-commercial and full of interesting content.

U.S. Forest Service:

You may now order FREE sets of scientist cards from our web site! The cards feature Forest Service scientists and are a great way to introduce students to different science careers. To view the variety of cards we have, please visit <http://www.naturalinquirer.org/scientists-v-92.html>. We also have 2 lesson plans to accompany the cards. These lesson plans are available as pdf files on the web page listed above and the direct links are: <http://www.naturalinquirer.org/UserFiles/File/FinalScientistsCardSeriesLessonPlan.pdf> and [http://www.naturalinquirer.org/UserFiles/File/CardLessonPlans_StealingBundles\(1\).pdf](http://www.naturalinquirer.org/UserFiles/File/CardLessonPlans_StealingBundles(1).pdf).

To order your free sets of cards today, please visit <http://www.naturalinquirer.org/Scientist-Card-Ordering-Page-v-155.html>.

Wet Gazette

The Water Education Foundation and California Project WET have changed the format for their Web site for water education resources. This excellent source for water education resources includes:

- Trending: What's Happening Now in California Water
- Water Topics: News, Events, and Information by Topic
- Aquaforia: What News You Need to Know
- Aquapedia: An Online Water Encyclopedia
- A Quicklink section giving upcoming events, and resources for purchase

For the spring issue of the Project WET Gazette, go to:

http://www.watereducation.org/publication/spring-2018-california-project-wet-gazette?utm_campaign=Welcome%20to%20Spring%2C%20California%20Project%20WET%20Alumni%21&utm_medium=email&utm_source=bundle_and_blast

For everyone seeking workshops, we have a variety for you to choose from this summer and a few already posted for the fall at the Foundation's website at [workshops](#) and [Special Workshops and Events](#). We also have lots of non-school related 'Events' for those who just want to get away!

Wildcare/Terwilliger Nature Education Programs

The Wildcare's Terwilliger Nature Education Programs offer a wide range of environmental education opportunities for K-12 classrooms, including:

-Live Wildlife Ambassador Program: Three wildlife ambassadors will visit your classroom for an unforgettable presentation.

Possible wildlife visitors include a Northern Spotted Owl, Virginia Opossum, California Desert Tortoise, Red Tailed Hawk, Gopher Snake and many more!

-Nature Hikes: Guided discovery hikes are offered at four locations (Spring Lake, Miwok Meadows, Ring Mountain, Muir Woods)

-Nature Van: Students will explore touchable taxidermy, bones and biofacts in this interactive presentation at your site. Choose from a variety of topics including California Wildlife, Birds of a Feather, Marvelous Mammals, Redwood Giants, Wild Wetlands, Ocean Adventures and Going Green.

-Center Tours: Meet our non-releasable rescued wildlife ambassadors in a guided tour around our outdoor courtyard and museum. Each tour includes a special animal encounter with one of our wildlife ambassadors.

Each classroom automatically qualifies for a scholarship that matches the percentage of the student body enrolled in the Free and Reduced Meal Program.

For more information or for additional teacher resources, visit <http://www.wildcarebayarea.org/education> or email tory@wildcarebayarea.org

WATER WEBSITES OF INTEREST

Visit the USA

Here you will find lots of great information and tips on visiting and traveling in the USA. No two trips are alike, so you will find information in this section for a variety of trip types. Whether you prefer staying in a resort or camping under the stars, the site includes details travelers need to be safe and happy a trip. Being prepared early and knowing what to expect will help reduce traveler stress and be more able to enjoy the unexpected events of travel. This website has done a lot of the ‘Wet Vacation’ research on states for students – and each state description often includes links to state travel sites that highlight regions within the state, such as the California travel website below.

Visit California

If you know which part of California is of interest but you still need some guidance, click on “Map,” and then explore one of the 12 geographical regions of the state. We’ve organized our content—including videos, a printed visitor’s guide and even [travel tips](#)—with an eye toward helping find what you want quickly and easily. Searching this site is simple: If you already know what you’re looking for, type the keywords into our search bar at the top of the page. The “hamburger” menu in the top right corner of the page is another great resource—it has links to articles and other content organized around interests.

National Park Service: [Plan Your Visit](#)

Are you ready? Whether you want to explore local places or plan a vacation, you’ll [find a park](#) to suit your interests! The National Park Service preserves unimpaired the natural and cultural resources and values of the National Park System for the enjoyment, education, and inspiration of this and future generations. This is a wonderful website to pair with or expand on ‘*Discover the Waters of Our National Parks*’ (p: 495) or [the California version of the activity!](#)

U.S.G.S. – [The National Map](#)

As one of the cornerstones of the [U.S. Geological Survey’s National Geospatial Program](#), The National Map is a collaborative effort among the USGS and other Federal, State, and local partners to improve and deliver topographic information for the Nation. It has uses ranging from recreation to scientific analysis to emergency response. The National Map Viewer is the one-stop destination for downloading map data and products. It uses easy to navigate foundational base maps and makes it simple to download products such as the US Topo.

U.S. Climate Data

The purpose of the U.S. Climate Data is to inform people about the climate in the United States. This website was developed by Your Weather Service. The website includes monthly and daily data for temperature, precipitation, snowfall and sunshine for multiple locations in every state. The monthly data also includes a climograph of the average precipitation, maximum and minimum temperature by month for each location that can be opened separately in its own page to copy. Each location also includes Google map link to see where it is located and a link to the current weather forecast at that location. The page also links to climate.eu where one can find monthly data for countries in Europe and Africa.

NOAA: [U.S. Climate Atlas](#)

These maps use daily observations of temperature and precipitation from over 10,000 stations in the U.S. based on new methodologies to quality control the daily data, summarize the daily data into monthly values and the creation of maps to visualize the information. There are maps for minimum temperature, maximum temperature, and precipitation. There are two types of data that can be displayed; maps for a particular month and year from 1895 to present, or climatology maps. The climatology maps represent average values from 1981 to 2010. These are also known as the “1981-2010 Normals”.

NOAA: [Defining Climate Normals](#)

You're looking forward to taking a much-deserved vacation in four months, and you want to visit a U.S. city you've never been to before. So, how do you decide where to go? Perhaps you'll consider places where you can expect your ideal temperatures. But, at four months out, your trusted weather forecast probably won't be much help in finding locations that meet your temperature criteria. Fortunately, our scientists have calculated the "normal" temperatures you can expect to see each month at locations across the United States. We call them [Climate Normals](#), and we compute a new installment every decade.

ESRI: [Severe Weather Public Information Map](#)

Manage your severe weather response with live feeds and sensor data. This map features live feed layers for Severe Weather across the United States and Canada and displays the predicted ice accumulation for the next 72 hours across the Continental United States. Data are updated hourly from the National Digital Forecast Database produced by the National Weather Service.

NOAA: [Climate Data Primer](#)

Heading out for a walk on a chilly spring morning, you notice misty clouds on the hills in the distance. You're feeling eager for summer to arrive, but the hillsides are just beginning to green up after the end of winter. You wonder, "Is it cooler than usual this spring? I think I'm usually wearing shorts by this time of year." Thinking about the weather, you recognize what you're really concerned about is if it will rain on your barbecue this weekend.

NOAA: [Historical Climate Summaries – New Version](#)

The Regional Climate Centers (RCC) deliver climate services at national, regional and state levels working with NOAA partners. The Regional Climate Center data interface is being updated, but you can already start using the new version. Click 'OK' on the note about the page not loading Google Maps correctly, then choose one of the two ways to use the map as described below the map. Click on any data point that appears to get more data than you probably want! This website includes the '30-year normals' used in the U.S. Climate Data locations, the maps in the U.S. Climate Atlas – AND you can get all the raw data available for the life of each gauge on the RCC map!

NOAA: [Comparative Climatic Data](#)

The Comparative Climatic Data tables of meteorological elements outline the climate conditions at major U.S. weather observing stations, Puerto Rico, and the Pacific Islands. The stations list is alphabetically by state. The table arrangement is so a single table of the same element allows the user to compare the values for different locations. Some elements will not be in the table for weather stations that do not regularly report that element. This site also allows users to [view data and graphs of temperature and precipitation Climate Normals](#) for over 9,800 stations across the United States.

US EPA: [Climate Change Indicators: Weather and Climate](#)

Rising global average temperature is associated with widespread changes in weather patterns. Scientific studies indicate that extreme weather events such as heat waves and large storms are likely to become more frequent or more intense with human-induced climate change. This chapter focuses on observed changes in temperature, precipitation, storms, floods, and droughts.

Real World Learning Objects: [Using Excel to Create a Climograph](#)

A climograph is a chart commonly used to graphically display both annual temperature (highs, lows, and averages) and precipitation information for a city or region. Meteorologists and climatologists use climatograms to understand the general climate of a region. They are also frequently included in travel books and tourism brochures so interested visitors can select the "best" time of year to visit a certain location. This website walks one through [how to use a spreadsheet program to create a climograph](#), and then use and analyze the graph to make a recommend times of the year to visit their area of study.

GardenZeus: [California Climate Zones](#)

The same weather and climate factors that may affect vacation plans also come into play when planning what to plant in your garden. GardenZeus California Climate Zones were developed by taking into account many factors including seasonal climate, temperature averages, elevation, frequency of frosts and precipitation. The website includes a wonderful synopsis of the prevailing weather and climate in each of their California climate zones, which upon clicking on shows a list of garden plants recommended for the region.

Desert research Institute: [Stories in the Snow](#)

DRI is pioneering an exciting and unique approach to the science of snow. The Stories in the Snow project engages community members as citizen scientists in real data collection and research throughout the Sierra Nevada. Every snowflake is unique, and the shape of freshly-fallen crystals can tell us about real-time atmospheric conditions. Using smartphone technology, you can help track the path a snowflake has taken through the atmosphere!

[California Project WET Supplemental Materials Page](#)

Remember to check this Water Education Foundation web page to find California specific supplements and other materials for use with Project WET activities, including other activities tied to weather and climate such as the California version of 'Discover the Waters of Our National Parks,' 'Snow and Tell' or 'Back to the Future.'
